

Network Evolution from Cords to 4G

Duration: 0.5 Day

Course Description: This overview course is a series of PowerPoint slides covering:

- Evolution of the telecommunications network from cord boards through digital switching and transport, and wireless technologies.

Target Audience: This course is designed for network facing person. This training is geared for the newcomer or a review for more experienced employees.

Course materials supplied: A copy of all slides is provided.

Min/Max class size: Although the target class size is 20 – 25 students, any class size from 5 to 50 is possible.

Prerequisite skills: A basic familiarization with telecommunications power and ability to follow block diagrams is helpful.

Cost: As this is a suit-cased course, travel and living time and expense can have a significant impact on overall cost as will the availability of suitable conference room facilities. Please contact us for a site-specific quotation. We'll need to know the approximate headcount, where in the country and whether a suitable conference room is available.
