

# Firefighting familiarization and strategies for the telecommunications equipment environment

**Duration:** 0.5 Days

**Course Description:** This course is a series of PowerPoint slides, video and walk-through exercises covering:

- Central office overview
- Fire protective systems
- Prefire plan
- Zone depowering plan
- Firefighter safety
- Suppression agents and their limits

**Target Audience:** This course is designed for firemen participating in an annual walk-through exercise and for Network Engineers, Operations Managers, Construction Managers and technicians. This training is geared for both the newcomer and experienced employees.

**Course materials supplied:** A copy of all slides and a job-aid booklet is provided .

**Min/Max class size:** Although the target class size is 10 – 15 students, any class size from 5 to 50 is possible.

**Prerequisite skills:** A basic familiarization with telecommunications is helpful.

**Cost:** As this is a suit-cased course, travel and living time and expense can have a significant impact on overall cost as will the availability of suitable conference room facilities. Please contact us for a site-specific quotation. We'll need to know the approximate headcount, where in the country and whether a suitable conference room is available.
