

# Telecommunications Cable Lacing (Lacing)

**Duration:** 1.0 Days

**Course Description:** This is a hands-on certification course and is a series of PowerPoint slides and exercises covering:

- The safety aspects of running and lacing telecommunications communications (switchboard) and power cabling
- Kansas City, St. Louis and Running stitches
- Protection for cable at stress points
- Properly repairing damaged insulation

**Target Audience:** This course is designed for those who install cable and network facing Engineers Operations Managers, Construction Managers and technicians who interface with them. This training is geared for both the newcomer and experienced employees.

**Course materials supplied:** A copy of all slides is provided as are safety glasses, cable lacing needles and gloves. Certification is provided upon passing a hands-on test.

**Min/Max class size:** Although the target class size is 5 – 10 students, any class size from 3 to 20 is possible.

**Prerequisite skills:** A basic familiarization with cabling is helpful.

**Cost:** As this is a suit-cased course, travel and living time and expense can have a significant impact on overall cost as will the availability of suitable conference room facilities. Please contact us for a site-specific quotation. We'll need to know the approximate headcount, where in the country and whether a suitable conference room is available.

**For more information:** Please contact us at (215) 880-2488 or email [dan@danmcmnamin.com](mailto:dan@danmcmnamin.com)
